

Jinju delegation list of companies

NAME OF COMPANY	WEBSITE	MAIN PRODUCTS
SERIM PRECISION IND.CO, LTD (주)세림정공	http://serimjg.koreasme.com/eng/index.html	gear cover, fork lift truck rear wheel drive device unit case, axel shaft, tractor rear wheel drive device unit rear
WOONG JUN IND.CO, LTD (주)웅전공업	/	Gears & Shaft for Automobile, Agricultural M/C and Tractor Rotavator Gear Assy
KOREA SHAFT CO, LTD (주)한국샤프트	http://eng.xn--hh4b293anub.kr/	rear shaft of tractors – for production possible long axle shaft and large axle shaft the forging presses patented tie bolt – the uniformity of the product quality according to the finished facility holds retain button bit - according to partial heating and cost reduction and using metal mold on material savings
DAESHIN PRECISION CO, LTD 대신정공(주)	http://idaeshin.co.kr/	3Point Link – link equipment which can link farm working machinery in tractor Tie Rod –either of two rods that link the steering gear to the front wheels Small Combine – for faster and easier harvest
SANGU PRECISION IND. CO, LTD (주)상우정공	http://www.swith.co.kr http://www.hurim.co.kr/	Power train system part. Oil hzdraulic pump parts, track driving motor parts and Swing motor parts for excavator. Air purifier. Eco-air cleaner made of retinispora
SUNGDOG INDUSTRIAL CO, LTD 성동산업주식회사	www.sdi-korea.com	IDLER Assy, different size for each model Transmission sub Assy, different size for each model
WOOSUNG PRECISION INDUSTRIAL CO, LTD (주)우성정공	http://www.wsp-ind.co.kr	Combine – combine knife and rotating knife etc A rice-planting machine – bevel gear etc Tractor
MYUNGLIM CO, LTD 주식회사명림	http://mleng.co.kr	Shafts and other component parts of transmission and transaxles of agricultural machinery, Heat exchangers(oil coolers)of marine transmission, Component parts such as push-rod and oil filters of diesel engines, Aluminum and titanium machining for aerocraft and ballistic missiles, Weapon parts manufacturing such as grenade body, Part manufacturing, using stamping, welding, turning, milling etc, Die and jig making
JINSUNG PRECISION 진성정밀	http://jinsunghyd.co.kr	Gear pump – controls oil hzdraulic equipment. Improved pump for high capacity efficiency, low

		<p>noise, weight lightening, reducing aluminium. Efficiency and durability.</p> <p>1]G200,G300 cast iron gear pump 2]High performance[special cast iron] Oil hydraulic pump 3]mass storage and high-pressures cast iron Casting, developing gear pump 4]combined Filter for Fan cooling. It maximize gear pump' performance. Available to use high-pressure(245kg/cm2) and excellent wear resistance, can use it in different conditions and can change previous set(construction machinery and special vehicles, general industrial machine, oil pressure UNIT, some oil pressure equipment which is requested long time lifespan.</p>
<p>CHUNMA MACHINERY CO, LTD 천마기계(주)</p>	<p>www.chunma7.com</p>	<p>hydraulic quick coupling, hydraulic flange, fittings, valves, hydraulic hose assy</p>
<p>TOBIS HYDRAULICS CO, LTD 토비스유압(주)</p>	<p>www.tobisparts.com</p>	<p>Main Pump - developed model for construction machinery or general industry. They have gotten trust because of high power density and high efficiency. Thanks to close design of function, they got improved construction machinery and general industrial piston pump.</p> <p>Traveling Motor – lets sprocket rotate, so help crawler to be able to be operated. It's suitable axial swash type piston motor which is built in reducer for construction and industrial equipment because it makes high output even though it's small.</p> <p>Turning motor is developed swash type axial piston motor for construction machinery, and it's equipped with mechanical brake, relief valve, makeup valve.</p> <p>Swing Motor</p>
<p>HANKUK MAGNET CO, LTD 한국마그넷(주)</p>	<p>www.magneto.co.kr</p>	<p>Ignition Coil – generates a high voltage necessary for creating spark at the ignition plug according to winding number (rate) of primary and secondary coil. It is attached on ignition plug of motorcycle engines and general engines</p> <p>Connecting Rod Assy - used for bus cooler, the piston performs the reciprocation within the cylinder and it transmits the compressed load as power to crankshaft through connecting rod</p>
<p>HEUNG SUNG CO, LTD 흥성공업(주)</p>	<p>/</p>	<p>Excavator Undercarriage, Hyundi Excavator trade parts</p>
