Regional Capital Market Conference – Investment-Readiness through relationship building

Regional Capital (ReCap) Market Conference is a two-day event, **May 22-23**, connecting entrepreneurs, mentors and potential (impact) investors from Serbia, the Balkan region and wider. It is a lab at the intersection of match-making, learning and negotiations. It is a relationship-building opportunity for the promotion of smart and fair investing practices.

ReCap is designed for investors to activate their networks triggering investors-flow; for entrepreneurs to demonstrate the authenticity and soundness of their business practices; for mentors to increase the legacy they create. ReCap is an interactive learning experience geared towards increasing innovative investments to scale small and investment-ready businesses in the Balkans.

This event is designed and implemented by Impact Hub Belgrade and is part of the Launchpad-Accelerating Venture Growth program supported by USAID Serbia.
